### **About - Atlantic Imports**

Atlantic Imports is an Atlantic Canadian company dedicated to providing a low cost and dependable tractor for the estate, hobbyist, business or farm owner. Our head office is conveniently located in Saint John, New Brunswick, Canada, approximately 60 miles from the Canada / U.S. border.

We are proud to offer a full and complete line of Chinese tractors and implements imported directly from quality factories in China.

China now produces more tractors than the rest of the world combined, with all major tractor companies now having production there. The quality of our tractors has steadily improved year over year, to the point where our current tractors have many standard features that most competitors charge as upgrades. All tractors are now manufactured in modern ISO9001 certified plants and come with new EPA approved diesel engines required in our North American market.

In addition, we have a complete line of implements available, which include front end loaders, mowers, snow blowers, wood chippers, roto- tillers, brush cutters, backhoes, turf tires, and much, much more!

Our goal is to provide our customer with a quality alternative product that is reasonably priced, so that you don't have to spend tens of thousands of dollars on equipment that you may use only on weekends. Take a tour of our website and see for yourself.....we think you'll be surprised by what you see!
